EXECUTIVE SUMMARY

A Chartered Psychologist and Systems Architect bridging 30 years of clinical heritage with Distributed Ledger Technology (DLT) to eliminate the administrative and liquidity friction in UK healthcare. Creator of the proprietary Mind-Body Attunement Therapy® (M-BAT) protocol, which serves as the clinical 'trust layer' for next-generation healthcare networks. Currently leveraging advanced executive training in Digital Assets (Cambridge Judge Business School) and Applied Neuroscience (KCL) to build AttunePay, a Distributed Financial Market Infrastructure (dFMI) that replaces 90-day procurement delays with atomic settlement.

CORE COMPETENCIES

- **Financial Infrastructure:** Digital Assets, Tokenised Health Budgets, Smart Contract Procurement, Atomic Settlement.
 - **Clinical Protocol Design:** Founder of M-BAT IP, Complex Trauma Architecture, Somatic Neuroscience.
 - **Public Health Leadership:** Provincial RFP Evaluation, Strategic Realignment, Million-Dollar Budget Oversight, Change Management.
-

THE CATALYST: TECHNOLOGY & NEUROSCIENCE (Recent Education)

University of Cambridge, Judge Business School | 2026

Executive Programme: Digital Assets for Enterprises

- **Focus:** Distributed Financial Market Infrastructure (dFMI), Tokenisation and Centralised Finance (CeFi), Regulation & Supervision of Digital Assets, Cryptoassets and ESG.

University of Oxford, Saïd Business School | 2026

Oxford Fintech Programme

- **Focus:** Financial disruption, regulatory frameworks, and incumbent vs. entrepreneurial perspectives in FinTech.

King's College London (IoPPN) | 2024 - Present

MSc Applied Neuroscience

- **Focus:** The biological foundations of mental health, translating complex neurological mechanisms into scalable, population-level systemic interventions.
-

EXECUTIVE & ENTREPRENEURIAL EXPERIENCE

Clinical Architect & Founder

Mind-Body Attunement Therapy® (M-BAT) & AttunePay | 2011 - Present

- **Protocol Creation:** Authored and successfully commercialised a proprietary therapeutic curriculum synthesising Attachment Theory and Somatic Neuroscience.
- **Global Scaling:** Scaled the M-BAT clinical model into a standardised, multi-level professional certification program, delivering the protocol to practitioners across the UK and Canada.
- **Network Foundation:** Established the verified practitioner network that currently serves as the 'supply-side' foundation for the AttunePay atomic settlement pilot.

Strategic Health Procurement & Organisational Leadership

Interior Health Authority & Crossroads Treatment Centre (BC, Canada) | 2003 - 2006

- **Systems Architecture:** Designed and chaired regional RFP evaluation committees, overseeing the strategic procurement and policy development for millions in provincial health service contracts.
- **Digital Transformation:** Architected bespoke information systems and database structures to optimise clinical workflows and enforce provincial reporting compliance.
- **Turnaround Management (Executive Director):** Led a high-stakes strategic pivot for a major treatment centre, realigning clinical protocols with provincial funding mandates. Managed comprehensive restructuring, union negotiations, facility accreditation, and multi-million-dollar budget oversight.

Frontline Clinical Data Acquisition (Private & Public Health)

Various NHS & Provincial Health Authorities (UK & Canada) | 1994 - 2024

- **Clinical Insight:** Delivered 30 years of direct psychotherapeutic intervention across severe psychopathology, complex trauma, and concurrent disorders.
- **Systemic Observation:** Acted as a Registered/Chartered Psychologist embedded within deep bureaucratic structures (Child & Youth Mental Health, Adult Mental Health, NHS Primary Care). This frontline exposure identified the fatal systemic flaws—specifically the 'Trust Gap' and administrative friction—that currently stall healthcare delivery and burn out practitioners.

Academic & Clinical Pedagogy

University of British Columbia, Brooklands College, Various Institutions | 1997 - 2017

- **Postgraduate Lecturing:** Instructed Master's level clinicians in advanced trauma protocols.
- **Programme Directorship:** Directed multi-year Higher National Diplomas in integrative counselling, managing student intake, experiential groups, and curriculum design.
